State Asylum for the Insane

Office of the Superintendent

Phoenix, Arizona, June 30, 1912.

To the Honorable Board of Control, Phoenix, Arizona:

Gentlemen:

I beg leave to submit the twenty-fifth annual report of the Arizona State Hospital for the Insane, for the fiscal year ending June 30, 1912:

In submitting this report I wish to remind you that, as I have only been in charge of the institution for three months, it has been impossible for me to familiarize myself with every detail; consequently, should this report be more or less incomplete, I have but one excuse to offer.

There were in the hospital on June 30th, 1911, 370 patients; on July 1st, 1912, there were 375 patients; being an increase of 5.

In regard to the discharged and paroled and death rate, I will simply call your attention to the appropriate tables which follow.

I find no record in the past, nor has there been during my administration, of an epidemic of any kind.

Complete case records are being obtained of every patient in the institution, and through these records, when we have sufficient room, we will be able to segregate, properly, our different forms of insanity.

I wish to call attention to the improvements contemplated and made possible by an appropriation of the Legislature of \$15,000:

The installation of an ice and cold storage plant, \$2,500.

Installation of new 30 H.-P. boiler, \$2,500.

Hydro-Therapeutic outfit, \$2,600.

New roof to hospital building, \$3,000.

Inter-communicating telephone system, \$300.

Remodeling of the east and west wings of Hospital building, at a nominal cost, as work is being done by our employes and patients, \$150.

Furniture for administration and remodeled part of main buildings, \$1,600.

These, with the minor improvements which appear from time to time will, I think, consume our appropriation.

I wish to thank all members of the Board for the encouragement and support I have received, and trust my labors may meet with your approval. Very respectfully,

A. C. KINGSLEY, M. D., Superintendent.
