Resources for Sun Safety activities

Sun Safety Alliance  http://www.sunsafetyalliance.org/

For sun safety activities for **infants and young children**, check out the Resources page:
http://www.sunsafetyalliance.org/resources.html

You will find links to curriculum ideas for school-age children, as well as links to information for staff training and parents!

Another UV Index source:
http://www.epa.gov/sunwise/uvindex.html#lookup

This is a link to the EPA site and includes information about how the UV index is determined and how to use it to make decisions about your time outside in the sun.

For their UV Index mobile app, go to:
http://www.epa.gov/enviro/mobile/
