Greetings!

My name is Brenda. I am writing this for Richard, (my husband), because he has no memory of December 31, 2013. But I know that we both feel the same about what I’ll try to express in this letter. It has been almost two months since Richard’s cardiac event, and he is growing stronger every day. What a fine example he has to contribute to the SHARE Program. We are in awe that he is invited to participate in this program.

Every second counts.
Every action matters.

These words are so true. From the doctors and nurses we met at Banner Hospital, who were so great at their jobs and so caring and kind to all of us. To our brothers Nate and Jim, and Cecil and Tom, who recognized something was wrong and leapt into action. To Matt, Brian, Mitch, Bill, and David, your compassion, caring, knowledge, experience, courage and strength helped save Richard’s life. This Bible verse from Matthew 18:20 helps me see the miracle that occurred before my eyes; helps me understand how Richard survived the Cardiac Arrest on New Year’s Eve. Jesus said, “For where two or three are gathered together in my name, there am I in the midst of them.” We have praised God and continue to be thankful.

Now we are so fortunate to have the opportunity to thank each of you, as well. These two little words, Thank you, do not seem enough to share with you how very grateful we are for what you did for Richard, and for all you do each and every day. Keep up the great work! Know that you are loved and appreciated for what you do, which is who you are.

Thank you Matt P., (What a great path you have chosen.), Brian W., Mitch M., Bill J., and David E.

God’s Blessings be on each of you and your families.

With respect and love,
Rich C. and Brenda D.
