Procedures:

A) Verification of Title XIX/XXI eligibility

The RBHA designee will utilize existing mechanisms to verify Title XIX/XXI eligibility.

Based upon this information:

- 1) If the applicant is Title XIX/XXI eligible, provide behavioral health services according to RBHA policy.

- 2) If the applicant is not currently Title XIX/XXI eligible continue with the process as outlined in Section B.

B) Screening applicants for AHCCCS (Title XIX/XXI) eligibility

- 1) The RBHA designee screens all Non-Title XIX/XXI applicants who request behavioral health services for AHCCCS (Title XIX/XXI) eligibility using the [AHCCCS Eligibility Screening Tool \(form ADHS AE-01\)](#).
- 2) The RBHA designee screens all T/RBHA enrolled Non-Title XIX/XXI applicants at least annually, and when significant changes occur in the person's financial status for AHCCCS (Title XIX/XXI) eligibility using the [AHCCCS Eligibility Screening Tool \(form ADHS AE-01\)](#).
- 3) The RBHA designee requests applicants who will be screened for AHCCCS (Title XIX/XXI) eligibility to bring supporting documentation to the screening interview. Information shall be provided to the applicant so that they understand that the documentation requested is only being asked for the purpose of assisting the applicant in applying for AHCCCS health care benefits. Also provide information that the health care benefits may also help to pay for behavioral health services. The applicant should be requested to bring the following supporting documentation to a screening interview:
 - a) Verification of gross family income for last month and this month (i.e. pay check stubs, social security award letter, retirement pension letter).
 - b) Social security numbers for all family members, bring social security cards if available.
 - c) For those who have other health insurance, bring the health insurance card (i.e. Medicare card).
 - d) Proof of United States citizenship and identity.
 - e) For those not born in the United States, citizenship or immigration documents and proof of identity.
 - f) For those who pay for dependent care expenses (i.e. adult or child daycare), proof of amount paid for the dependent care.
 - g) For individuals/families with higher incomes (exceeds 100% of FPL) and who are financially responsible for medical expenses, after deducting the expenses, their income is 40% or less than the FPL (\$311/month), verification of out-of-pocket medical expenses. The Medical Expense Deduction (MED) was established by AHCCCS after approval of Proposition 204 in 2000. MED offers individuals/families with incomes too high to be eligible for Title XIX the opportunity to become eligible using their medical expenses. Potential applicants deduct their out-of-pocket medical expenses from their income reducing their

countable income to less than 40% of the FPL. This calculation is measured for the month before the application, the month of the application, and the following month. See R9-22-1429 for specific language on the methodology.

- 4) The RBHA designee completes the AHCCCS Eligibility Screening Tool. The tool will indicate one of the following:
 - a) The applicant is potentially AHCCCS (Title XIX) eligible and an application should be submitted to the Department of Economic Security (DES). Follow Procedure **C** for applications that should be sent to DES.
