

END STAGE RENAL DISEASE - 10.01  
TOP TEN FEDERAL DEFICIENCIES  
(01-01-14 through 12-31-14)

494.80(a)(2)	PA-Appropriateness of Dialysis Rx
494.60(b)	PE-Equipment Maintenance-Manufacturer's DFU
494.170	MR-Complete, Accurate, Accessible
494.30(a)(1)	IC-Wear Gloves/Hand Hygiene
494.80(a)(2)	PA-Assess B/P. Fluid Management Needs
494.30	IC- Sanitary Environment
494.30(a)(4)(ii)	IC-Disinfect Surfaces/Equip/Written Protocol
494.30(a)(1)(i)	IC-Gowns, Shields/Masks-No Staff Eat/Drink
494.30	CFC-Infection Control
494.60	PE-Safe/Functional/Comfortable Environment

0503:

The patient's comprehensive assessment must include, but is not limited to, the following:

(2) Evaluation of the appropriateness of the dialysis prescription,

0403:

The dialysis facility must implement and maintain a program to ensure that all equipment (including emergency equipment, dialysis machines and equipment, and the water treatment system) are maintained and operated in accordance with the manufacturer's recommendations.

0726:

The dialysis facility must maintain complete, accurate, and accessible records on all patients, including home patients who elect to receive dialysis supplies and equipment from a supplier that is not a provider of ESRD services and all other home dialysis patients whose care is under the supervision of the facility.

0113:

Wear disposable gloves when caring for the patient or touching the patient's equipment at the dialysis station. Staff must remove gloves and wash hands between each patient or station.

0504:

The patient's comprehensive assessment must include, but is not limited to, the following:

Blood pressure, and fluid management needs.

0111:

The dialysis facility must provide and monitor a sanitary environment to minimize the transmission of infectious agents within and between the unit and any adjacent hospital or other public areas.

0122:

The facility must demonstrate that it follows standard infection control precautions by implementing-

(4) And maintaining procedures, in accordance with applicable State and local laws and accepted public health procedures, for the-]

(ii) Cleaning and disinfection of contaminated surfaces, medical devices, and equipment.

0115:

Staff members should wear gowns, face shields, eye wear, or masks to protect themselves and prevent soiling of clothing when performing procedures during which spurting or spattering of blood might occur (e.g., during initiation and termination of dialysis, cleaning of dialyzers, and centrifugation of blood). Staff members should not eat, drink, or smoke in the dialysis treatment area or in the laboratory.

0110:

Infection Control

0401:

The dialysis facility must be designed, constructed, equipped, and maintained to provide dialysis patients, staff, and the public a safe, functional, and comfortable treatment environment.
