Mass Care Shelters & Emergency Planning

- Selection
- Surveys
- Information sharing
- Supplies
- Training

Shelter Selection

Shelters must be **safe** & accommodate all the activities of shelter life.

Shelter Surveys

Shelter facility surveys should be conducted with emergency management partners – include general facility and ADA accessibility information.

Information Sharing

Most shelter data CAN be shared with emergency management partners.

Shelter Supplies

Shelter supplies are staged across Arizona and more can be quickly deployed from neighboring states.

Shelter Training

Red Cross disaster relief training is FREE and open to our partners. Classes include shelter operations, management and serving people with Access & Functional Needs.
