Graham County Health Department Tours New Health Facility at the San Carlos Apache Tribe in Peridot

Melissa Lunt, RN, Brian Douglas, Health Director, and Matt Bolinger, Epidemiologist from the Graham County Health Department were treated to a tour of the beautiful new San Carlos Apache Healthcare Campus in Peridot. Maria Padilla, RN was a very gracious host leading the tour of the new medical facility. Thank you Maria.

The San Carlos Apache Healthcare Campus consists of five buildings situated on a 50-acre site.

The outlying buildings are Behavior Health, Dentistry, Public Health, and EMS. The hospital portion of the project utilizes the new chronic care model reducing wait time of the patient by bringing individual care disciplines to the patient. The San Carlos Apache Healthcare Campus consists of five buildings situated on a 50-acre site.

ADHS Annual HPP-PHEP All Partners Meeting

ALPHERA GOALS 2015/2016

GOAL #1

Include any opportunity that identifies potential shared resources at every in-person meeting, and incorporate a report of those resources in the ALPHERA newsletter at least quarterly (i.e. MOU templates, policies, procedures)

GOAL #2

At least quarterly, the ALPHERA meeting agenda shall include the review of one of the capabilities by the counties and tribes. This year's focus to be Recovery, EOC Coordination and Responder Safety and Health. The review will include best practices, innovative solutions and identified barriers to the capability.

GOAL #3

Include a "best practice" presentation at each in-person meeting. Presentations should reflect this year's Deliverables (or next year's expected deliverables, if known.)

GOAL #4

Identify opportunities that support the alignment of Public Health Emergency Preparedness Deliverables and Healthcare Preparedness Deliverables.

June 20 - 21, 2016

8am - 5pm each day

* Register On-Line through ERMA at www.erma.az.gov

How to Store Water

Good

FDA approved Plastic Drums
Glass Bottles or Jars

Mylar Bags
Water Heaters

These containers don't allow in gases, vapors, odors or light

Poor

Polyethylene Plastics (Milk, water, bleach containers)

These pick up odors, vapors & light. Also are biodegradable and will leak

Other

Water Beds—Toilet Tanks—Inside Pipes.—Purify if in doubt

PREPAREDNESS TIP

HOW TO PURIFY WATER

**The absolute bare minimum per day for cooking and drinking is 1 gallon per person.

**Add additional water for bathing & washing.

BOIL

Bring water to a full rolling boil for at least 5 minutes. Add another minute per 1000 ft. that you are above sea level. After boiling, you may improve the taste of the water by pouring it back and forth from one container to another to aerate it.

BLEACH

Use Bleach that has sodium hypo-chlorite as its only active ingredient. Add the following dosage according to clear or cloudy water then let stand for 30 minutes. A slight odor of chlorine should be detectable if the water is properly treated. Add a little more until smell is detectable.

	QUART	GALLON
Clear	2 Drops	8 Drops
Cloudy	4 Drops	16 Drops
Iodine		
2% Tincture		
Clear	3 Drops	12 Drops
Cloudy	6 Drops	24 Drops

TABLETS

Usually 1 tablet per quart. Double if cloudy. These can be bought at most drug stores.

MECHANICAL FILTERS

There are many filters to choose from that can filter out contaminants. Price ranges between \$10-600. The Katadyn PF Pocket Filter is one of the better ones. It can filter 1 quart of water per minute, weighs 23 ounces, is about the size of a flashlight.

Greenlee & Graham County Ebola Workshop

Graham and Greenlee Counties
ARIZONA

REGIONAL EBOLA/INFECTIOUS DISEASE

WORKSHOP

Ebola virus

**Thursday
April 28, 2016**

■ Workshop
10:00 – 2:00 pm
(Lunch will be provided)

**Eastern Arizona
College**

Gila/Galiuro Room
615 N. Stadium Avenue
Thatcher, AZ 85552

Target Audience

<https://www.eventbrite.com/e/infectious-disease-workshop-tickets-21233716618>

The Public Health Emergency Preparedness Program from Cochise Health & Social Services is facilitating an Infectious Disease Workshop at the Windemere in Sierra Vista on March 22nd 2016. The daylong session will begin at 0900 with a series of lectures explaining not only what diseases are communicable and their modes of transmission but also the responsibilities of Public Health during a disease response. The afternoon session will be a demonstration and practicum of proper donning and doffing of personal protection equipment. Lunch will be provided and subject matter experts will be on hand to answer questions. Please sign up through the site <https://www.eventbrite.com/e/infectious-disease-workshop-tickets-21233716618> and join us for an educational experience. All are welcome to attend!
