Notes: Non-resident cases have been excluded. Only incident cases are reported. *E.coli* includes both *E.coli* O157:H7 and other Shiga-toxin positive *E.coli*. *Haemophilus influenzae* includes all invasive *H. influenzae*, not just meningitis, as of 1995. Meningococcal includes all invasive disease caused by *Neisseria meningitidis*, not just meningitis. *Salmonella* Paratyphi A, *Salmonella* Paratyphi B, and *Salmonella* Paratyphi C have been reported separately from other *Salmonella* spp. beginning in 1997. Cases reported with an unknown sex or unknown age were added into the total for each morbidity. In mid-2009, a large laboratory changed its reporting practices for coccidioidomycosis; reported coccidioidomycosis has been elevated since then.

\*All cases of malaria were imported. There was no local transmission
