

Request For Site Visit

After you send your request, the School Garden Program Coordinator will contact you to schedule a site visit. The site visit is consultative - the School Garden Program Coordinator will review certification requirements, tour the location of the garden, discuss the plans for the garden, and may provide recommendations. After the site visit, create your Food Safety Plan using the template and submit it to the School Garden Program Coordinator for review. Once the Food Safety Plan is final, the School Garden Program Coordinator will mail you your certificate!
