**Between**  
Arizona Department of Health Services  
**And**  
Centers for Disease Control and Prevention (“CDC”), National Healthcare Safety Network  
 (“NHSN”)

The Arizona Department of Health Services and CDC/NHSN enter into this Data Use Agreement (the “Agreement”) effective 3/19/18 (“Effective Date”). CDC/NHSN and the Arizona Department of Health Services shall be referred to individually as a “Party,” or collectively as the “Parties.”

This Agreement establishes a formal data access and data use relationship between CDC/NHSN and the Arizona Department of Health Services. This Agreement covers individual- and institution-identifiable data, received by the CDC/NHSN subject to the Federal Privacy Act, 5 USC §§552 and 552a, from the NHSN Patient Safety Component, Healthcare Personnel Safety Component, and Dialysis Component as listed in the attached document that have been voluntarily submitted to NHSN by healthcare institutions in Arizona and for which there is no State or applicable local mandate for reporting of such individual- or institution-identifiable data (“COVERED DATA”). However, COVERED DATA shall NOT include data pertaining to federal or tribal healthcare institutions.

The Parties shall abide by all applicable Federal and State laws, rules, and regulations including, without limitation, all patient confidentiality and medical record requirements and any applicable Institutional Review Board (“IRB”) requirements.

**STATE’S OR MUNICIPALITY’S USES OF COVERED DATA**

Arizona Department of Health Services agrees to use the COVERED DATA for surveillance and/or prevention purposes only (e.g., evaluating the impact of a targeted program to reduce central line-associated bloodstream infections). Arizona Department of Health Services specifically agrees not to use the COVERED DATA obtained under this data use agreement for purpose of public reporting of institution-specific data or any regulatory or punitive actions against healthcare institutions, such as a fine or licensure action. The Parties acknowledge that COVERED DATA is limited to those data specified in the attached document, which identifies the complete set of data items, e.g., facility survey data, central line associated bloodstream infection numerator data, that Arizona Department of Health Services will have access to as a result of this Agreement.

Arizona Department of Health Services agrees to designate an NHSN Group Administrator and CDC/NHSN agrees to grant the State’s designated NHSN Group Administrator access to the State’s COVERED DATA. In the event that the NHSN Group Administrator leaves that role prior to assigning a replacement via the NHSN application, CDC/NHSN requires notification in writing on official letterhead from the signatory or the signatory’s successor to assure continuity.

- The designated NHSN Group Administrator for Arizona Department of Health Services is Clancey Hill, HAI Epidemiology Program Manager, [Clancey.hill@azdhs.gov](mailto:Clancey.hill@azdhs.gov), Pheonix, AZ.

Arizona Department of Health Services agrees that access to individual- and institution-identifiable data provided under the terms of the Agreement will be limited solely to department staff or contractors who are explicitly authorized to use those data for surveillance and/or prevention purposes only.
