NHSN Training Workshop

Definitions, Updates, and Case Studies
For CAUTI, CLABSI, CDI, MRSA, and SSI

The information provided during this training is based on the three-day March 2015 training offered in Atlanta by the Centers for Disease Control and Prevention.

At this training, you will:

- Review 2015 National Healthcare Safety Network (NHSN) updates for CAUTIs, CLABSIs, CDIs, MRSA, and SSIs.
- Examine new HAI reporting definitions using interactive case studies.
- Review the Centers for Medicare & Medicaid Services reporting requirements for HAI surveillance using NHSN.

WHEN

Friday, April 24, 2015 | 9:00 a.m. to 3:30 p.m.
