

# ASIS Reconciliation Regional Training

## HL7 Roadshow | Part 2

Presented by the Arizona Immunization Program Office

### What is the purpose of this training?

The Reconciliation Roadshow has been updated and revised to educate Arizona State Immunization Information System (ASIS) users on the importance of accuracy when managing an immunization program which utilizes an HL7 interface to ASIS. This series examines how daily clinical tasks like ordering and receiving vaccines and administering immunizations affect immunization reporting, vaccine inventory and statistical functions.

### Who should participate?

ASIS users of all skill levels from VFC and non-VFC organizations which are **interfaced** with ASIS are encouraged to attend, including those who participated in the first Roadshow series. Laptops will be available for hands on inventory issue resolution. If you would like to work through inventory challenges during the training please email Lindsay Shaver [Lindsay.Shaver@azdhs.gov](mailto:Lindsay.Shaver@azdhs.gov) or Roger Aikin [Roger.Aikin@azdhs.gov](mailto:Roger.Aikin@azdhs.gov) to reserve a laptop, space is very limited.

See you on the road!
