

Disclaimer for Bench Sheets

The Arizona Department of Health Services (ADHS) has made every effort to ensure the accuracy of the information provided in this spreadsheet. The bench sheets are intended to be used as a tool to assist facilities in performing approved methods correctly. It was not the intent of ADHS to cover all possible information required in this spreadsheet. Reference in this spreadsheet to any specific commercial products, process, service, manufacturer, or company does not constitute its endorsement or recommendation by the ADHS.

Instruction for Spreadsheet

ADHS has provided example bench sheets for WWTP facilities which may be modified to the individual needs.

These bench sheets are not complete enough for licensed laboratories, but may be modified to meet those needs.

This flexibility allows facilities to change the bench sheet to fit their process; however, these sheets

do provide basic method requirements and facilities should verify that any changes do not remove method requirements.
