# Fact or Fiction?

All clownfish are born male and can change themselves to females when they need to spawn.

**Bureau of Nutrition and Physical Activity**

Health and Wellness for all Arizonans

# Fact!

All clownfish are males when they are born. A male clownfish can later turn itself into a female fish in order to spawn. When a female fish in the shoal dies, the most dominant male takes its place by changing the sex.

Alright guys, who is the lucky one that gets to change themselves into the woman this time?
