</table>

- **85** – Normal
- **84** – Hearing loss
- **257** No final diagnosis
3 Month Milestone

Out of 426 requiring Dx eval; only 169 have a final DX

√ 85 Normal
√ 84 Hearing loss

As of 09.18.2012:
257 infants still needed a diagnostic evaluation

Only 22.30% met the 3 month goal
Six Month Milestone
All infants identified with hearing loss will receive appropriate early intervention services before 6 months of age
6 Month Milestone

ADHS is in the process of implementing use of Early Intervention module in Hi*Track.

Turnaround time for early intervention services will be available in the future.
Coming Soon

Each hospital will receive their own report and graphs providing information in regards to:

- **One month Milestone**
- **Three month Milestones**
- **Six month Milestones (when available)**

The report will indicate hearing status of babies with both normal hearing and with hearing loss.
Reducing Loss to Follow Up

REDDUCING LOSS TO FOLLOW UP:
The ADHS follow up team is working with PCP and families to make sure that:

- Infants requiring an initial hearing screen will get one: 853 cases
- Infants requiring an outpatient screen will get one: 181 cases
- Infants requiring a diagnostic evaluation will get one: 257 cases
