

Clarke is a global
environmental products
and services company.

We specialize in two areas:

Aquatic Services and Mosquito Control

We deliver the most effective solutions based on over 60 years of industry-leading experience.

TODAY:

We reach over 300M people in 40 countries.

TOMORROW:

Our goal is to help make the lives of over 660M people around the world more livable, safe and comfortable every year.

660 Million People

Our mission is to make communities around the world more livable, safe and comfortable.

Three passions
drive our actions
and behaviors
as individuals and
as a company:

1. INNOVATION

Introducing revolutionary ideas, and finding new and better solutions is what we continually strive to do.

2. COMMUNITY

We're enthusiastic about making a difference, so we are committed to **helping people near and far** as a business and in our everyday lives.

3. SUSTAINABILITY

We're guided by the principle of knowing that the actions we're taking today are **lessening our impact on the earth**, leaving the world better for future generations.

INNOVATION

Introducing revolutionary ideas

THE MOST
experience and
resources from
one source

THE ONLY
EPA Reduced
Risk larvicide line:
Natular™

THE FASTEST
response team
in the industry

COMMUNITY

Helping people near and far

GIVING BACK

around the world to
prevent the spread
of Malaria and
Elephantiasis

GETTING
INVOLVED
by volunteering
in our communities

SUPPORTING
YOU
through education
and PR / media
assistance

Community Update The Kanke Project

Your purchases and generous donations helped Clarke and The Carter Center reach our goal of providing 38,000 mosquito nets to the people of Kanke, Nigeria.

Together we have made a difference.

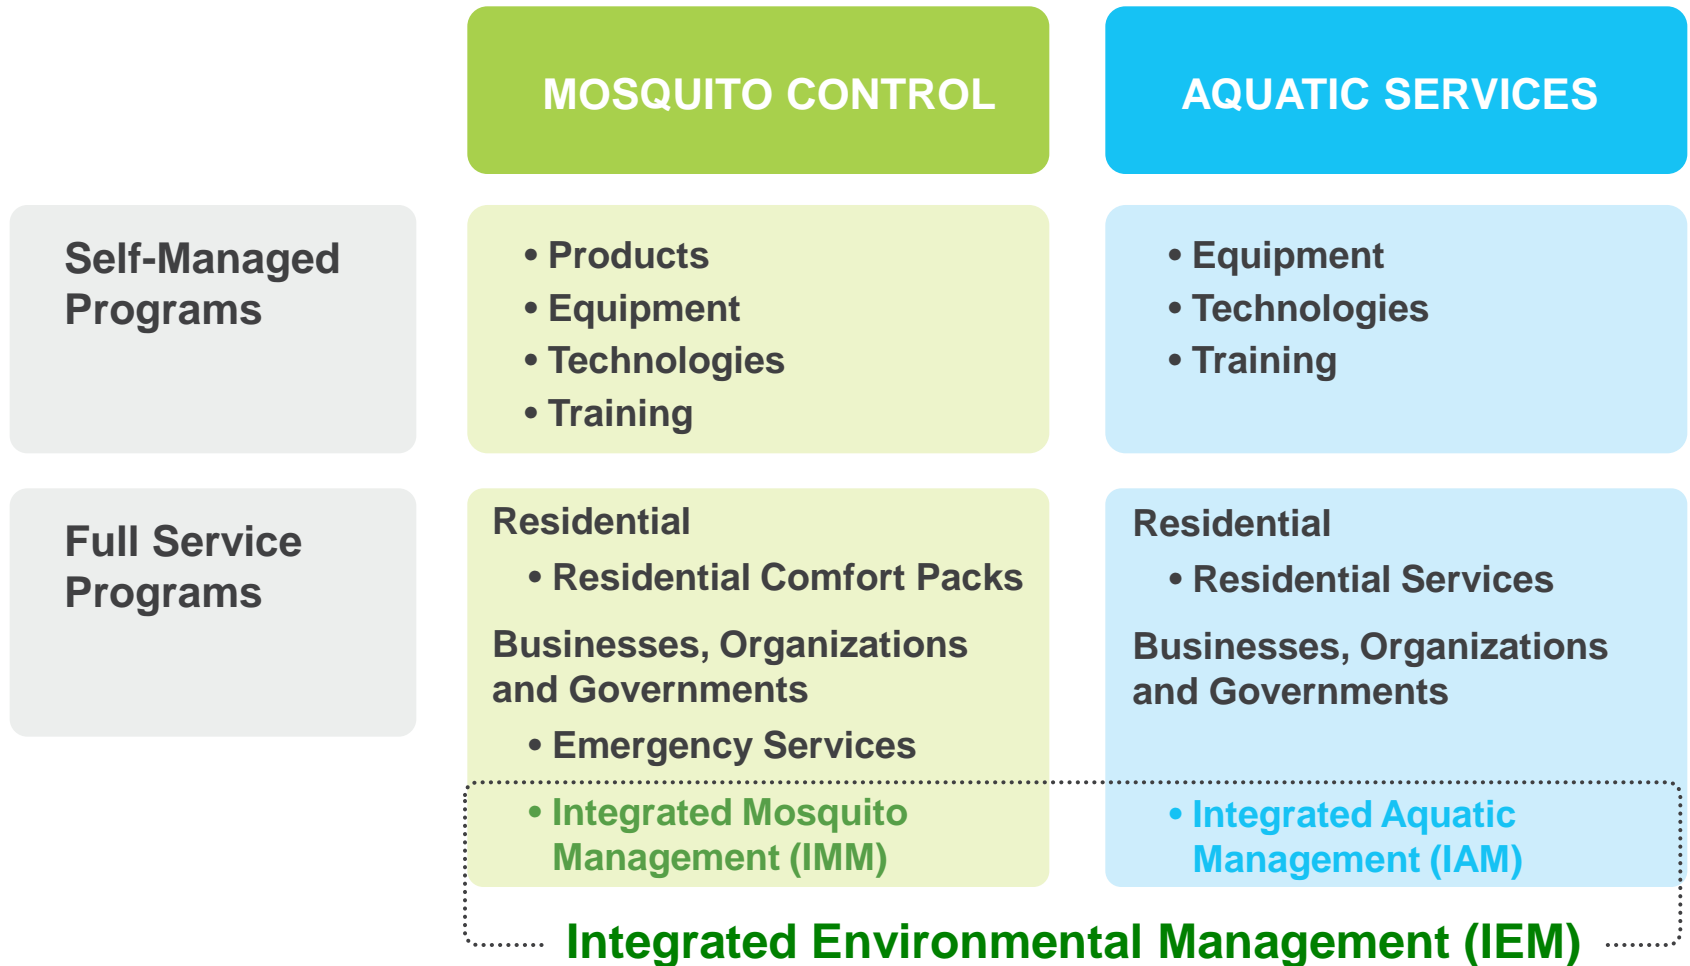

Making communities around the world more livable, safe and comfortable.

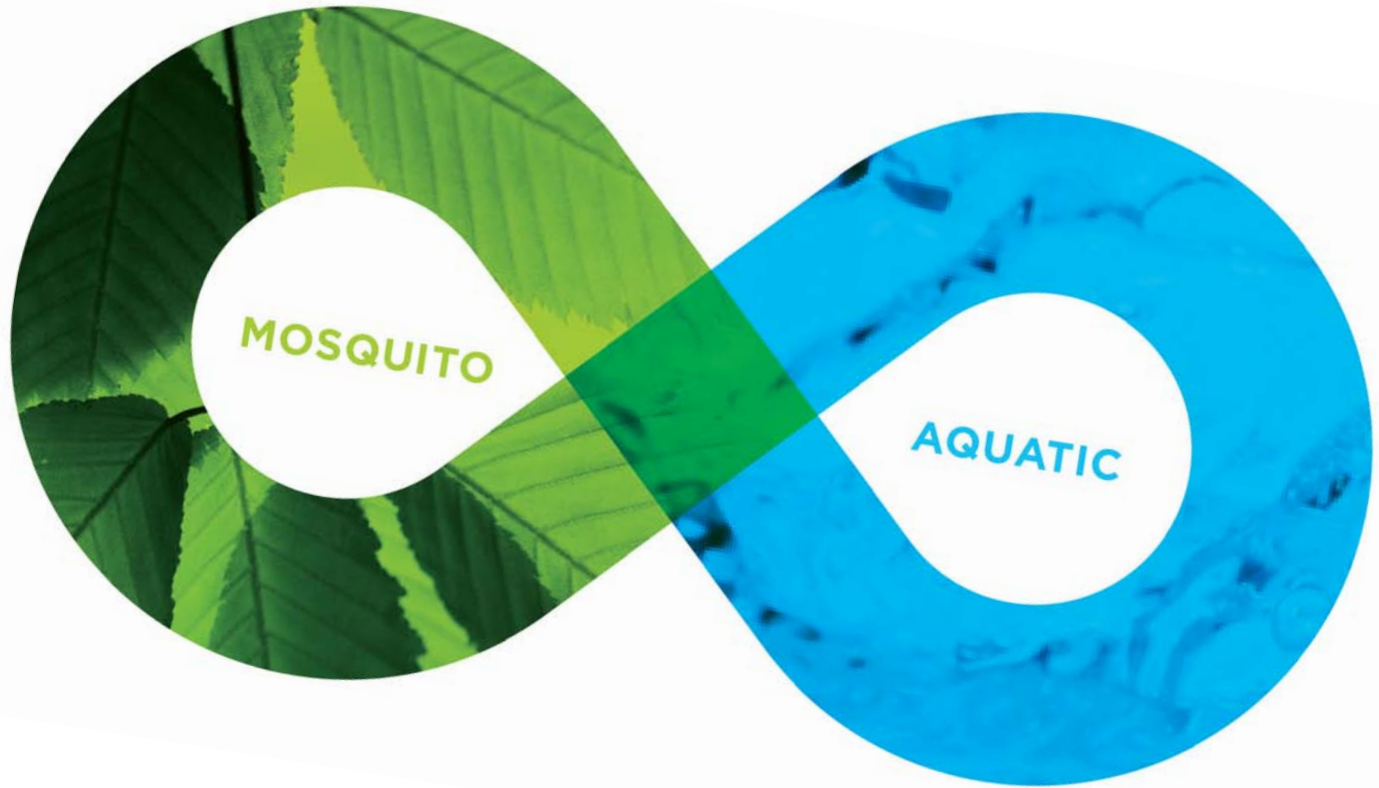

SUSTAINABILITY

Lessening our impact on the earth

Our full range of offerings

A Better Understanding

Because we understand the interactions and relationships between mosquito control and aquatic management, we can prescribe the most efficient and effective treatment methods for your environment.

Where are we headed?

Innovation and Clarke Products

Natular

New Larvicide

New class of chemistry
Sustainability solutions
Greater application flexibility
Precision performance

A full range of formulations

Duet™

Dual Action Adulticide

New class of chemistry
Sustainability solutions
Greater application flexibility
Precision performance

Duet™

Puts More Mosquitoes in the Line of Fire

- **Prallethrin + Sumithrin = dual-active**
- **Provokes mosquitoes out of harborage areas in a state of benign agitation**
- **Quicker knockdown**
- **Unparalleled efficacy**

AquaAnvil™

AquaHalt™

**Droplet Optimization Technology
“DOT”**

**A formulation advancement that
sets new performance standards
for water and oil based adjuvants**

AquaAnvil™

AquaHalt™

Droplet Optimization Technology “DOT”

- **Other water-based formulations must protect against evaporation to stay effective.**
- **“DOT” formulations utilize evaporation to optimize droplets into more concentrated (hot) drops**

LittLine™

**Targeted application technology
for control of invasive aquatic
species**

LittLine™

- **Permits application at most effective zone for species treatment**
- **Reduces pesticide usage up to 50%**
- **Reduces overall treatment cost**

Thank You
