FORM 2
MCH BUDGET DETAILS FOR FY 2008

[Secs. 504 (d) and 505(a)(3)(4)]

STATE: AZ

1. FEDERAL ALLOCATION

(Item 15a of the Application Face Sheet [SF 424])
 Of the Federal Allocation (1 above), the amount earmarked for:

\$ 7,255,120

A.Preventive and primary care for children:

\$ 2,242,127 (30.9%)

B.Children with special health care needs:

\$ 2,176,536 (30%)

(If either A or B is less than 30%, a waiver request must accompany the application)[Sec. 505(a)(3)]

C.Title V administrative costs:

\$ 725,512 (10%)

(The above figure cannot be more than 10%)[Sec. 504(d)]

2. UNOBLIGATED BALANCE (Item 15b of SF 424)

\$ 1,618,200

3. STATE MCH FUNDS (Item 15c of the SF 424)

\$ 16,879,160

4. LOCAL MCH FUNDS (Item 15d of SF 424)

\$ 0

5. OTHER FUNDS (Item 15e of SF 424)

\$ 28,991,313

6. PROGRAM INCOME (Item 15f of SF 424)

\$ 0

7. TOTAL STATE MATCH (Lines 3 through 6)

(Below is your State's FY 1989 Maintenance of Effort Amount)

\$ 12,056,360

\$ 45,870,473

8. FEDERAL-STATE TITLE V BLOCK GRANT PARTNERSHIP (SUBTOTAL)

(Total lines 1 through 6. Same as line 15g of SF 424)

\$ 54,743,793

9. OTHER FEDERAL FUNDS

(Funds under the control of the person responsible for the administration of the Title V program)

a. SPRANS: \$ 0

b. SSDI: \$ 94,644

c. CISS: \$ 140,000

d. Abstinence Education: \$ 0

e. Healthy Start: \$ 0

f. EMSC: \$ 114,702

g. WIC: \$ 65,996,173

h. AIDS: \$ 0

i. CDC: \$ 0

j. Education: \$ 0

k. Other: \$ 0

CHILD FATALITY \$ 148,000

CRS \$ 49,574,056

FAMILY VIOLENCE \$ 1,699,821

INTEGRATED COMM S \$ 429,278

KIDS CARE \$ 5,009,499

PHBG \$ 1,217,089

RAPE PREV ED \$ 711,008

SPINAL HEAD INJURY \$ 286,846

STATE INJURY SURVEI \$ 116,760

UNIVERSAL NB HEARIN \$ 149,970

10. OTHER FEDERAL FUNDS (SUBTOTAL of all Funds under item 9)

\$ 125,687,846

11. STATE MCH BUDGET TOTAL

(Partnership subtotal + Other Federal MCH Funds subtotal)

\$ 180,431,639

FIELD LEVEL NOTES

- 1. Section Number:** Main
Field Name: FedAllocExpended
Row Name: Federal Allocation
Column Name: Expended
Year: 2006
Field Note:
As reported previously, the budget period has been transitioned from a federal fiscal year to a calendar fiscal year. Consequently, the annual reporting of budgeted, encumbered, and expended monies through September 30 is misleading in that we actually have another three months remaining in our calendar year budget cycle, so expenditures will appear less than they should while remaining money will appear greater.
- 2. Section Number:** Main
Field Name: FedAllocExpended
Row Name: Federal Allocation
Column Name: Expended
Year: 2005
Field Note:
As reported previously, the budget period has been transitioned from a federal fiscal year to a calendar fiscal year. Consequently, the annual reporting of budgeted, encumbered, and expended monies through September 30th is misleading in that we actually have another three months remaining in our calendar year budget cycle so expenditures will appear less than they should while remaining money will appear greater.
- 3. Section Number:** Main
Field Name: UnobligatedBalanceExpended
Row Name: Unobligated Balance
Column Name: Expended
Year: 2006
Field Note:
As reported previously, the budget period has been transitioned from a federal fiscal year to a calendar fiscal year. Consequently, the annual reporting of budgeted, encumbered, and expended monies through September 30th is misleading in that we actually have another three months remaining in our calendar year budget cycle so expenditures will appear less than they should while remaining money will appear greater.
- 5. Section Number:** Main
Field Name: OtherFundsExpended
Row Name: Other Funds
Column Name: Expended
Year: 2005
Field Note:
The other funding support for 2005, in the amount of \$19,573,750, came from our collaboration with other state government agencies that supplemented the CRS, Health Start, and Teen Pregnancy Prevention programs. The increase in FY2005 is the result of time limited Lottery funds.
- 6. Section Number:** Main
Field Name: OtherFedFundsExpended
Row Name: Other Federal Funds
Column Name: Expended
Year: 2006
Field Note:
Budgeted amounts are based on previous year's projections and do not correlate well with the actual budgeted amount because of the unpredictability of the actual award amount and program changes that occur.

FIELD LEVEL NOTES

1. **Section Number:** Main
Field Name: CSHCN_TS
Row Name: Children with Special Health Care Needs
Column Name: Title V Total Served
Year: 2008

Field Note:

Of the 30,075 CYSHCN who were served by Title V, 22,895 were served through Children's Rehabilitative Services (CRS) and the rest were served through various state-funded programs, including OWCH and OCSHCN service coordination programs and community nursing. Among the CRS enrollees, 18,685 were known to be either Title XIX or XXI. It is unknown how many of the other children may have been eligible for other programs. In the past, this measure only reported CRS enrollees. Number also includes children with special health care needs served by the Community Health Grants program.

FORM 10
TITLE V MATERNAL & CHILD HEALTH SERVICES BLOCK GRANT
STATE PROFILE FOR FY 2008
[SEC. 506(A)(1)]
STATE: AZ

1. State MCH Administration:
(max 2500 characters)

The Arizona Department of Health Services was established as the State Public Health Agency in 1973 under A.R.S. Title 36 and is designated as Arizona's Title V Agency. The Office of Women's and Children's Health and the Office for Children with Special Health Care Needs provide policies and standards development, comprehensive planning, community organization and development, training and technical assistance, and direct provision of screening, preventive and curative services and service coordination. Services provided through the Title V program include, but are not limited to, the statewide Newborn Screening, Universal Newborn Hearing Screening, High Risk Perinatal Services, community development, Community Grants Initiative, Family Planning, Hotline, Health Start, Medical Home Project, and Traumatic Brain Injury Project.

Block Grant Funds

2. Federal Allocation (Line 1, Form 2)	\$ <u>7,255,120</u>
3. Unobligated balance (Line 2, Form 2)	\$ <u>1,618,200</u>
4. State Funds (Line 3, Form 2)	\$ <u>16,879,160</u>
5. Local MCH Funds (Line 4, Form 2)	\$ <u>0</u>
6. Other Funds (Line 5, Form 2)	\$ <u>28,991,313</u>
7. Program Income (Line 6, Form 2)	\$ <u>0</u>
8. Total Federal-State Partnership (Line 8, Form 2)	\$ <u>54,743,793</u>

9. Most significant providers receiving MCH funds:

community health centers, community nursing
hospitals and service coordinators
Raising Special Kids, Sickle Cell Society
county health departments

10. Individuals served by the Title V Program (Col. A, Form 7)

a. Pregnant Women	<u>28,075</u>
b. Infants < 1 year old	<u>109,266</u>
c. Children 1 to 22 years old	<u>548,368</u>
d. CSHCN	<u>30,093</u>
e. Others	<u>14,455</u>

11. Statewide Initiatives and Partnerships:

a. Direct Medical Care and Enabling Services:
(max 2500 characters)

OCSHCN provides MCH block grant dollars to fund service coordination for children who are at risk of developmental delays but do not meet the medical or financial eligibility requirements of the AzEIP. Additional block grant dollars, in conjunction with funding from the Governor's Council on Head and Spinal Injuries, and a grant from BHHS Legacy Foundation provide service coordination to children and youth with traumatic brain and spinal cord injuries up to the age of 21. The High Risk Perinatal Program provides direct health care services in two of its three components: the maternal transport component authorizes and funds the transport of high risk pregnant women to appropriate medical centers for delivery and the community nursing component provides in-home nursing consultation to enrolled families. Hospital and Inpatient Physician Services has contracts with physician groups to provide care to infants in the Newborn Intensive Care Unit. Developmental Follow-up Service provides developmental assessments after discharge. The Reproductive Health/Family Planning Program contracts with county health departments to provide education, counseling, referral, and medical care services to women of childbearing age. Community Health Services contracts for community-based efforts to improve the health of women of childbearing age by developing programs focusing on healthy weight, tobacco cessation, injury prevention, relieving stress, exercise, and nutrition. The Domestic Violence Program provides shelter services and counseling to victims of domestic violence and their children. The Health Start Program provides in-home prenatal outreach services through lay health workers to at-risk women.

b. Population-Based Services:
(max 2500 characters)

Teen Pregnancy Prevention Health Marketing Campaign: State funds became available in 2004 to address prevention of teen pregnancies in Arizona. Key stakeholders were brought together to help determine the best use for the funds, and a major outcome was a statewide teen pregnancy prevention marketing campaign. The campaign used a poetry jam format in television ads to promote a message of "Respect yourself: abstain or use a condom." The campaign is complemented by the funding of two communitybased projects in locations with the highest teen pregnancy rates. The community-based projects will create a local plan to address teen pregnancy, and then begin implementation of the plan. Newborn Screening: In 2005, the Arizona Legislature enacted legislation requiring the ADHS to specify in rule the disorders to be screened and added the follow up of newborn hearing disorders. This legislature allows for the expansion of the number and type of disorders screened in newborns. Tandem Mass Spectrometry has been added to the methodologies used for newborn screening in Arizona, which vastly increases the number of possible disorders that can be screened. ADHS identifies over a hundred newborns annually through screening, who are ultimately diagnosed with clinically significant disorders. In 2004, the Newborn Screening Program located all of the affected infants and facilitated access to care until assured that the newborns received appropriate need services.

c. Infrastructure Building Services:
(max 2500 characters)

Women's Health: OWCH used Title V funds to support the women's health policy advisor to the Governor. The policy advisor, located in the Governor's Office for Children, Youth, and Families, works closely with OWH on issues such as family planning, teen pregnancy prevention, and preventive health care for women. Major initiatives include development and implementation of activities for Women's Health Week and staffing the Governor's Commission on the Health Status of Women. State Early Childhood Comprehensive Systems Grant: OWCH has collaborated with the Governor's School Readiness Board to apply for and carry out the activities of the State Early Childhood Comprehensive Systems Grant. The statewide early childhood systems planning initiative is coordinated by the Governor's Office for Children, Youth and Families' School Readiness Board staff. The School Readiness Board submitted recommendations to the Governor, and the Governor's School Readiness Action Plan was developed. School Readiness Board staff and OWCH staff are working together to implement the health-related recommendations from the Governor's Action Plan. Initiatives include expansion of health screenings for young children and the development of a statewide child care health consultation system. Injury Prevention: OWCH leads the Department's injury

prevention efforts through management of the ADHS Injury Prevention Advisory Council and the ADHS Injury Prevention Internal Workgroup. Infrastructure-building activities include leading the update to the statewide injury surveillance and prevention plan, and outreach to new and existing partners throughout the state. In addition, significant Title V resources are dedicated to child car seat safety. Community-based projects funded by Title V typically include training additional people to become certified by the national Highway Safety Transportation Administration for teaching parents/caregivers how to properly install car seats. The OWCH also houses the Arizona Safe Kids coalition, which is targeting the expansion of new local coalitions and development of existing coalitions. OCSHCN uses Title V dollars to support an Integrated Service Grant to make recommendations to implement and sustain medical homes. The Community Development Initiative, led by OCSHCN, partners with other state agencies to include families and youth in agency decision-making processes. Title V dollars support 31 parent leaders and 13 community teams.

12. The primary Title V Program contact person:

Name Sheila Sjolander, MSW
 Title Chief, OWCH

Row Name:
Column Name:
Year: 2004
Field Note:
 The data reported in 2004 are pre-populated with the data from 2002 for this performance measure.

PERFORMANCE MEASURE # 06

The percentage of youth with special health care needs who received the services necessary to make transitions to all aspects of adult life, including adult health care, work, and independence.

Annual Objective and Performance Data

	2002	2003	2004	2005	2006
Annual Performance Objective	5.8	6	6	6	6
Annual Indicator	5.8	5.8	5.8	5.8	5.8
Numerator					
Denominator					

Check this box if you cannot report the numerator because
 1. There are fewer than 5 events over the last year, and
 2. The average number of events over the last 3 years is fewer than 5 and therefore a 3-year moving average cannot be applied.

(Explain data in a year note. See Guidance, Appendix IX.)

Field Level Notes

1. Section Number: Performance Measure #7

Field Name: PM07

Row Name:

Column Name:

Year: 2006

Field Note:

The source of immunization data is the CDC National Immunization Survey (<http://www.cdc.gov/nip/coverage/NIS/01/toc-01.htm>). Previously, the reported rate represented the coverage level for 4DPT, 3OPV and 1 MMR only, because data were not reliably available for the full series recommended by the CDC, which also includes 3 doses of Hep B and 3 doses of Hib. No data were available for this measure for 1998, but the data points for 1999 forward have been changed to reflect the full 4:3:1:3:3 series. Performance objectives were also changed to reflect the change in the measure. Estimates for data points are based on reports for the following date ranges:

1999 = July 1998 through Jun 1999

2000 = "2000"

2001 = Jan 01 through Dec 01

2002 = Jul 01 through Jun 02

2003 = Jul 02 through Jun 03

2004= Jul 03 through Jun 04

2005= Jan 04 through Dec 04

2006=Jan 05 through Dec 05

The 2006 estimate reflects the immunization status of children by age two for children who were 19-35 months of age, born between February 2002 and July 2004. The estimate tolerates 4.2% error at a 95% confidence level.

2. Section Number: Performance Measure #7

Field Name: PM07

Row Name:

Column Name:

Year: 2005

Field Note:

The source of immunization data is the CDC National Immunization Survey (<http://www.cdc.gov/nip/coverage/NIS/01/toc-01.htm>). Previously, the reported rate represented the coverage level for 4DPT, 3OPV and 1 MMR only, because data were not reliably available for the full series recommended by the CDC, which also includes 3 doses of Hep B and 3 doses of Hib. No data were available for this measure for 1998, but the data points for 1999 forward have been changed to reflect the full 4:3:1:3:3 series. Performance objectives were also changed to reflect the change in the measure. Estimates for data points are based on reports for the following date ranges:

1999 = July 1998 through Jun 1999

2000 = "2000"

2001 = Jan 01 through Dec 01

2002 = Jul 01 through Jun 02

2003 = Jul 02 through Jun 03

2004= Jul 03 through Jun 04

2005= Jan 04 through Dec 04

The 2005 estimate reflects the immunization status of children by age two for children who were 19-35 months of age, born between February 2001 and May 2003. The estimate tolerates 4.2% error at a 95% confidence level.

3. Section Number: Performance Measure #7

Field Name: PM07

Row Name:

Column Name:

Year: 2004

Field Note:

The source of immunization data is the CDC National Immunization Survey (<http://www.cdc.gov/nip/coverage/NIS/01/toc-01.htm>). Previously, the reported rate represented the coverage level for 4DPT, 3OPV and 1 MMR only, because data were not reliably available for the full series recommended by the CDC, which also includes 3 doses of Hep B and 3 doses of Hib. No data were available for this measure for 1998, but the data points for 1999 forward have been changed to reflect the full 4:3:1:3:3 series. Performance objectives were also changed to reflect the change in the measure. Estimates for data points are based on reports for the following date ranges:

1999 = July 1998 through Jun 1999

2000 = "2000"

2001 = Jan 01 through Dec 01

2002 = Jul 01 through Jun 02

2003 = Jul 02 through Jun 03.

2004= Jul 03 through Jun 04

The 2004 estimate reflects the immunization status of children by age two for children who were 19-35 months of age, born between August 2000 and November 2002. The estimate tolerates 3.8% error at a 95% confidence level.

PERFORMANCE MEASURE # 08

The rate of birth (per 1,000) for teenagers aged 15 through 17 years.

Annual Objective and Performance Data

	2002	2003	2004	2005	2006
Annual Performance Objective	43	42	41	35	35
Annual Indicator	35.5	35.9	35.8	34.1	34.1
Numerator	3,952	4,110	4,227	4,179	
Denominator	111,218	114,368	118,082	122,496	

Check this box if you cannot report the numerator because
 1. There are fewer than 5 events over the last year, and
 2. The average number of events over the last 3 years is fewer than 5 and therefore a 3-year moving average cannot be applied.

Field Level Notes

- Section Number:** Performance Measure #9

Field Name: PM09

Row Name:

Column Name:

Year: 2006

Field Note:

The figure for 2006 is from a statewide oral health survey of over 80 communities, for 1999-2003. This survey will be re-done for each needs assessment year, with the next survey scheduled for 2010.

- Section Number:** Performance Measure #9

Field Name: PM09

Row Name:

Column Name:

Year: 2005

Field Note:

The figure for 2005 is from a statewide oral health survey of over 80 communities, for 1999-2003. This survey will be re-done for each needs assessment year, with the next survey scheduled for 2010.

- Section Number:** Performance Measure #9

Field Name: PM09

Row Name:

Column Name:

Year: 2004

Field Note:

The data source for this measure has been changed. Figures for previous years were from a statewide oral health survey of over 80 communities. The measure for 2004 is based on children in schools from five of the 15 counties in Arizona where at least 65% of the student population in the school are on the Free and Reduced Lunch program. Data is collected on second grade children because physiologically, their average age is the optimum time for sealant placement on first permanent molars. Presence of existing dental sealants is determined at the time of the screening for sealant need, and before any additional sealants are placed. Data reported for 2004 were collected during the 2003-2004 school year and 24% of students were found to have sealants. The same surveillance method on the previous academic year yielded an estimate of 20%.

PERFORMANCE MEASURE # 10

The rate of deaths to children aged 14 years and younger caused by motor vehicle crashes per 100,000 children.

	Annual Objective and Performance Data				
	2002	2003	2004	2005	2006
Annual Performance Objective	6.3	5.9	5.9	5	4.2
Annual Indicator	4.8	5.3	4.5	4.2	4.2
Numerator	59	67	58	56	
Denominator	1,226,721	1,261,764	1,300,444	1,347,557	

Check this box if you cannot report the numerator because
 1. There are fewer than 5 events over the last year, and
 2. The average number of events over the last 3 years is fewer than 5 and therefore a 3-year moving average cannot be applied.

Annual Performance Objective	97	97	98	98	99
Annual Indicator					
Numerator					
Denominator					

Please fill in only the Objectives for the above years. Numerator, Denominator and Annual Indicators are not required for future year data.

Field Level Notes

1. Section Number: Performance Measure #12

Field Name: PM12

Row Name:

Column Name:

Year: 2006

Field Note:

The rates of newborn hearing screening from previous years were based on a combination of reported screen results and inferred rates from non-reporting screening sites. Due to the promulgation of rule this year, requiring providers to report newborn hearing screening results, the newborn hearing screening rate for 2006 is based on actual reported data from all birthing hospitals.

Newborn Screening Rules were approved in April 2006. Two of the 47 birthing hospitals began reporting after the rules had been approved. Two hospitals began birthing services during 2006. Of the 47 hospitals 102,095 babies were born (Vital Records) and 98,363 were screened before discharge (HI*Track).

2. Section Number: Performance Measure #12

Field Name: PM12

Row Name:

Column Name:

Year: 2005

Field Note:

The data reported are estimated based on 44 out of 46 birthing hospitals. While all 46 birthing hospitals have universal screening programs, reporting to the ADHS is voluntary, and not all report. Among the 88,150 births at these 44 hospitals, 86,604, or 98.2% were screened. The best estimate of the numerator for this measure on a statewide basis is 98.2% of all births: 96,487 x .982 = 94,750.

3. Section Number: Performance Measure #12

Field Name: PM12

Row Name:

Column Name:

Year: 2004

Field Note:

The data reported are estimated based on 41 out of 45 birthing hospitals. While all 45 birthing hospitals have universal screening programs, reporting to the ADHS is voluntary, and not all report. Among the 78,139 births at these 41 hospitals, 76,774, or 98.3% were screened. The best estimate of the numerator for this measure on a statewide basis is 98% of all births: 98,551 x .983 = 96,876.

PERFORMANCE MEASURE # 13

Percent of children without health insurance.

Annual Objective and Performance Data

	2002	2003	2004	2005	2006
Annual Performance Objective	14	14	14	14	14.5

Field Level Notes

1. **Section Number:** Performance Measure #15

Field Name: PM15

Row Name:

Column Name:

Year: 2006

Field Note:

The State of Arizona does not have a survey like PRAMS that would collect data related to smoking during the last 3 months of pregnancy. The only data available is from the birth certificate, which records whether or not the mother smoked during the pregnancy, but is not specific to the last 3 months of the pregnancy. Therefore, the percent reported is the percent of women giving birth in 2006 who smoked at any time during pregnancy.

2. **Section Number:** Performance Measure #15

Field Name: PM15

Row Name:

Column Name:

Year: 2005

Field Note:

The State of Arizona does not have a survey like PRAMS that would collect data related to smoking during the last 3 months of pregnancy. The only data available is from the birth certificate, which records whether or not the mother smoked during pregnancy, but is not specific to the last 3 months of the pregnancy. Therefore, the percent reported is the percent of women giving birth in 2005 who smoked at any time during pregnancy.

PERFORMANCE MEASURE # 16

The rate (per 100,000) of suicide deaths among youths aged 15 through 19.

Annual Objective and Performance Data

	2002	2003	2004	2005	2006

Annual Indicator	77.6	80.1	81.6	77.6	77.6
Numerator	678	741	805	868	
Denominator	874	925	986	1,119	

Check this box if you cannot report the numerator because
 1. There are fewer than 5 events over the last year, and
 2. The average number of events over the last 3 years is fewer than 5 and therefore a 3-year moving average cannot be applied.

(Explain data in a year note. See Guidance, Appendix IX.)

Field Level Notes

1. **Section Number:** Performance Measure #17

Field Name: PM17

Row Name:

Column Name:

Year: 2006

Field Note:

The data source for this measure is birth certificate data for live births. Births in which the birth weight was recorded as being under 450 grams are excluded as a data quality measure, as it is unlikely that these records represent actual birth weights. Only facilities certified by the Arizona Perinatal Trust as level III facilities are included in the numerator. Banner Desert Samaritan became certified as a Level III on 10/1/02. Data for 2006 are not yet available. The estimate for 2006 is provisionally set at the 2005 rate until data become available in the Fall of 2007.

2. **Section Number:** Performance Measure #17

Field Name: PM17

Row Name:

Column Name:

Year: 2005

Field Note:

The data source for this measure is birth certificate data for live births. Births in which the birth weight was recorded as being under 450 grams are excluded as a data quality measure, as it is unlikely that these records represent actual birth weights. Only facilities certified by the Arizona Perinatal Trust as level III facilities are included in the numerator. Banner Desert Samaritan became certified as a Level III on 10/1/02.

3. **Section Number:** Performance Measure #17

Field Name: PM17

Row Name:

Column Name:

Year: 2004

Field Note:

The data source for this measure is birth certificate data for live births. Births in which the birth weight was recorded as being under 450 grams are excluded as a data quality measure, as it is unlikely that these records represent actual birth weights. Only facilities certified by the Arizona Perinatal Trust as level III facilities are included in the numerator. Banner Desert Samaritan became certified as a Level III on 10/1/02.

PERFORMANCE MEASURE # 18

Percent of infants born to pregnant women receiving prenatal care beginning in the first trimester.

Annual Objective and Performance Data

	2002	2003	2004	2005	2006
Annual Performance Objective	78	79	80	78	78
Annual Indicator	75.7	75.6	76.3	77.7	77.7
Numerator	66,146	68,632	71,268	74,453	
Denominator	87,379	90,783	93,396	95,798	

Check this box if you cannot report the numerator because
 1. There are fewer than 5 events over the last year, and
 2. The average number of events over the last 3 years is fewer than 5 and therefore a 3-year moving average cannot be applied.

Field Level Notes

1. Section Number: State Performance Measure #1

Field Name: SM1

Row Name:

Column Name:

Year: 2006

Field Note:

Starting with the 2004 data point, the numerator is women at or below 200% FPL who received family planning services through Title V, Title X, Title XIX, or 330/340 Federally Funded Community Health Centers. The denominator is women at or below 200% FPL who are fertile.

Data for this measure is from the Arizona Family Planning Council's Comprehensive Family Planning Report, which is usually conducted annually. However, this report was not created for 2005. Therefore, the 2005 and 2006 rate is provisionally set at the 2004 rate the new report is issued in the fall of 2007.

2. Section Number: State Performance Measure #1

Field Name: SM1

Row Name:

Column Name:

Year: 2005

Field Note:

Starting with the 2004 data point, the numerator is women at or below 200% FPL who received family planning services through Title V, Title X, Title XIX, or 330/340 Federally Funded Community Health Centers. The denominator is women at or below 200% FPL who are fertile.

Data for this measure is from the Arizona Family Planning Council's Comprehensive Family Planning Report, which is usually conducted annually. However, this report was not created for 2005. Therefore, the 2005 and 2006 rate is provisionally set at the 2004 rate the new report is issued in the fall of 2007.

3. Section Number: State Performance Measure #1

Field Name: SM1

Row Name:

Column Name:

Year: 2004

Field Note:

Both the numerator and the denominator for this measure changed as of the 2004 reporting year. In the past, Arizona reported just those women receiving family planning services through Title V funded clinics in the numerator. The denominator, was women below 150% FPL.

Starting with the 2004 data point, the numerator is women at or below 200% FPL who received family planning services through Title V, Title X, Title XIX, or 330/340 Federally Funded Community Health Centers. The denominator is women at or below 200% FPL who are fertile.

STATE PERFORMANCE MEASURE # 2

The percent of high school students who are overweight or at-risk for overweight.

Field Level Notes

- Section Number:** State Performance Measure #2

Field Name: SM2

Row Name:

Column Name:

Year: 2006

Field Note:

The YRBS report already provides the calculated percentage. The percent at risk was added to the percent overweight to get the total at-risk +overweight.

The YRBS report is done every two years. Therefore, the 2006 rate is set at the 2005 rate. The next report available will be for 2007.

- Section Number:** State Performance Measure #2

Field Name: SM2

Row Name:

Column Name:

Year: 2005

Field Note:

The YRBS report already provides the calculated percentage. The percent at risk was added to the percent overweight to get the total at-risk +overweight.

- Section Number:** State Performance Measure #2

Field Name: SM2

Row Name:

Column Name:

Year: 2004

Field Note:

The YRBS report already provides the calculated percentage. The percent at risk was added to the percent overweight to get the total at-risk +overweight.

The YRBS report is done every two years. Therefore, the 2004 rate is set at the 2003 rate. The next report will be for 2005.

STATE PERFORMANCE MEASURE # 3

The percent of preventable fetal and infant deaths out of all fetal and infant deaths.

FORM 12
TRACKING HEALTH OUTCOME MEASURES
[SECS 505 (A)(2)(B)(III) AND 506 (A)(2)(A)(III)]
STATE: AZ

Form Level Notes for Form 12

None

OUTCOME MEASURE # 01

The infant mortality rate per 1,000 live births.

Annual Objective and Performance Data

	2002	2003	2004	2005	2006
Annual Performance Objective	7.5	7.4	7.4	6.3	6.3
Annual Indicator	6.3	6.5	6.7	6.8	6.8
Numerator	552	586	622	653	
Denominator	87,379	90,783	93,396	95,798	

Check this box if you cannot report the numerator because

- 1. There are fewer than 5 events over the last year, and
- 2. The average number of events over the last 3 years is fewer than 5 and therefore a 3-year moving average cannot be applied.

(Explain data in a year note. See Guidance, Appendix IX.)

Field Level Notes

1. **Section Number:** Outcome Measure 5

Field Name: OM05

Row Name:

Column Name:

Year: 2006

Field Note:

Prior to the 2008 application year (the 2005 data point), the indicators in this measure were determined by taking the number of fetal deaths and induced terminations of pregnancy greater than 20 weeks gestation plus infant deaths less than 7 days divided by live births plus fetal deaths. For 2005 forward, the indicator for this measure is determined by taking the number of spontaneous fetal losses greater than 28 weeks gestation plus infant deaths less than 7 days old divided by the live births plus fetal deaths. Data for 2006 are not yet available. The estimate for 2006 is provisionally set at the 2005 rate until data become available in the Fall of 2007.

The following is the data for 2000-2004 using the new method:

2000: Annual Indicator: 6.3 Numerator:536 Denominator:85,245

2001: Annual Indicator: 6.7 Numerator:570 Denominator:85,487

2002: Annual Indicator: 6.4 Numerator:562 Denominator:87,657

2003: Annual Indicator: 6.0 Numerator:550 Denominator:91,035

2004: Annual Indicator: 6.1 Numerator:568 Denominator:93,667

2005: Annual Indicator: 6.1 Numerator:588 Denominator:96,064

OUTCOME MEASURE # 06

The child death rate per 100,000 children aged 1 through 14.

Annual Objective and Performance Data

	2002	2003	2004	2005	2006
Annual Performance Objective	31.7	31.6	31.5	23.5	23
Annual Indicator	23.7	24.3	20.4	22.7	22.7
Numerator	271	286	248	285	
Denominator	1,144,126	1,176,805	1,213,314	1,257,269

FORM 14
LIST OF MCH PRIORITY NEEDS

[Sec. 505(a)(5)]

STATE: AZ FY: 2008

Your State's 5-year Needs Assessment should identify the need for preventive and primary care services for pregnant women, mothers, and infants; preventive and primary care services for children and services for Children with Special Health Care Needs. With each year's Block Grant application, provide a list (whether or not the priority needs change) of the top maternal and child health needs in your state. Using simple sentence or phrase, list below your State's needs. Examples of such statements are: "To reduce the barriers to the delivery of care for pregnant women, " and "The infant mortality rate for minorities should be reduced."

MCHB will capture annually every State's top 7 to 10 priority needs in an information system for comparison, tracking, and reporting purposes; you must list at least 7 and no more than 10. Note that the numbers listed below are for computer tracking only and are not meant to indicate priority order. If your State wishes to report more than 10 priority needs, list additional priority needs in a note at the form level.

1. Reduce teen pregnancy and increase women's access to reproductive health services
2. Reduce obesity and overweight among women and children
3. Reduce preventable infant mortality
4. Reduce the rate of injuries, both intentional and unintentional
5. Increase access to prenatal care among the underserved
6. Improve oral health of children, especially among high-risk populations
7. Integrate mental health with general health care
8. Educate families, providers, and child-serving agencies on eligibility rules and processes for accessing services
9. Increase access to available and appropriate services for children and youth with special health care needs
10. Increase the recognition of families as integral partners in the care of their children's health and wellbeing

FORM 16
STATE PERFORMANCE AND OUTCOME MEASURE DETAIL SHEET
STATE: AZ

SP # 1

PERFORMANCE MEASURE:	Proportion of low-income women who receive reproductive health/family planning services.
STATUS:	Active
GOAL	To improve the health status of women of childbearing age (15-44 years).
DEFINITION	<p>Numerator: Number of women of low economic status (at or below 200% of federal poverty line) age 15-44 who receive reproductive health and family planning services.</p> <p>Denominator: Number of women of low economic status (at or below 200% of federal poverty line) age 15-44.</p> <p>Units: 100 Text: Percent</p>
HEALTHY PEOPLE 2010 OBJECTIVE	9-1 Increase to at least 70% the proportion of all pregnancies among women 15-44 that are planned.
DATA SOURCES AND DATA ISSUES	In an effort to provide a timely and reasonable estimate of the need for family planning services in Arizona, the Arizona Family Planning Council conducts an annual needs assessment. The needs assessment compares the number of low-income women who are potentially in need of family planning services (women 15 through 44 with an income at or below 200 percent federal poverty level who are fertile) to the number of these women reported to receive free or subsidized family planning services through publicly funded resources. Publicly funded service networks work collaboratively with Arizona Family Planning Council to provide data for this report.
SIGNIFICANCE	Publicly funded family planning services are provided through Title V, Title X, AHCCCS, county governments, and federally-funded community health centers. Services include birth control and other vital health care services to low-income women and teens including breast and cervical cancer screening, screening and treatment for STDs, HIV and pregnancy testing and counseling, comprehensive physical exams and other primary health care services. Often, family planning clinics are the only source of primary care for women. The 2002 National Survey of Family Growth found that many pregnancies continue to be either mistimed or unwanted. Three fourths of women 25 through 44 years of age intended their pregnancy, while less than one fourth (22 percent) of women under the age of 20 indicated that their pregnancy was intended. For those women under the age of 20, 57 percent said that the pregnancy was mistimed and 22 percent said that it was unwanted.

SP # 2

PERFORMANCE MEASURE:

The percent of high school students who are overweight or at-risk for overweight.

STATUS:

Active

GOAL

Reduce the percent of high school students who are overweight or at-risk for overweight.

DEFINITION

Youth Risk Behavior Survey calculates body mass index from students' self reports of heights and weights, and categorizes them using CDC criteria as normal, underweight, overweight, and at-risk for becoming overweight.

Numerator:

The weighted number of students classified as either "overweight" or "at-risk for overweight" in the YRBS.

Denominator:

The weighted number of all students in the Youth Risk Behavior Survey.

Units: 100 **Text:** 1

HEALTHY PEOPLE 2010 OBJECTIVE

19-3

Reduce the proportion of children and adolescents who are overweight or obese.

DATA SOURCES AND DATA ISSUES

Youth Risk Behavior Survey calculates body mass index from students' self reports of heights and weights, and categorizes them using CDC criteria as normal, underweight, overweight, and at-risk for becoming overweight.

SIGNIFICANCE

The National Health and Nutrition Examination Survey found that there has been an increase in overweight 12-19 year-olds from 5% to 16% over the last 40 years. While maintaining a healthy weight is important for people of all ages, being overweight during childhood can carry life-long health consequences. The Surgeon General's Call to Action to Prevent and Decrease Overweight and Obesity states: "Risk factors for heart disease, such as high cholesterol and high blood pressure, occur with increased frequency in overweight children and adolescents compared to children with a healthy weight. Type 2 diabetes, previously considered an adult disease, has increased dramatically in children and adolescents. Overweight and obesity are closely linked to type 2 diabetes. Overweight adolescents have a 70% chance of becoming overweight or obese adults."

SP # 3

PERFORMANCE MEASURE:

The percent of preventable fetal and infant deaths out of all fetal and infant deaths.

STATUS:

Active

GOAL

Reduce infant mortality by reducing the percent of preventable fetal and infant deaths.

DEFINITION

Using the CDC Periods of Risk Model, excess deaths will be identified by comparing death rates of various subgroups to infant death rates of White women age 20 and older with more than 12 years of education.

Numerator:

Total number of excess deaths identified by the Periods of Risk analysis.

Denominator:

Total number of fetal and infant deaths.

Units: 100 **Text:** 1

HEALTHY PEOPLE 2010 OBJECTIVE

16-1

Reduce the fetal(fetal deaths at 20 or more weeks of gestation) to no more than 4.1 per 1,000 live births, and reduce the infant mortality rate to no more than 5 per 1,000 live births.

DATA SOURCES AND DATA ISSUES

Arizona infant and fetal death certificates will be matched to birth certificate data using the CDC Periods of Risk Model. Deaths will be classified into periods of risk by weight and gestational age at the time of death, and excess death rates will be calculated by race/ethnicity, age, and education level.

SIGNIFICANCE

Although infant mortality in Arizona has declined, disparities remain in the rates of death among various subgroups of the population. African American, American Indian, and Hispanic infants die at higher rates than White infants, as do infants born to less educated women and teens. While not all infant mortality can be prevented, disparities suggest that interventions directed at excess mortality within high-risk populations provide an opportunity for further progress.

SP # 4

PERFORMANCE MEASURE:

Emergency department visits for unintentional injuries per 100,000 children age 1-14.

STATUS:

Active

GOAL

To reduce the rate of emergency department visits for unintentional injuries among children age 1-14.

DEFINITION

Numerator:

The number of outpatient emergency department visits for non-fatal unintentional injuries and poisonings for children age 1-14.

Denominator:

The population of children age 1-14.

Units: 100000 **Text:** Rate

HEALTHY PEOPLE 2010 OBJECTIVE

Injury/violence Prevention Objective 9

Reduce emergency department visits caused by unintentional injuries to no more than 111 per 1,000 people.

DATA SOURCES AND DATA ISSUES

All acute-care hospitals in Arizona, with the exception of federal hospitals (military and Indian Health services), are required to submit emergency room utilization data to the Arizona Department of Health Services twice a year. The population of children age 1-14 is based on the Arizona Department of Economic Security population projections.

SIGNIFICANCE

Injuries, both intentional and unintentional, are among the leading causes of death among children of all ages in Arizona. Unintentional injuries, homicides, and suicides accounted for 79% of all deaths among children 1-14 and 75% of deaths among adolescents age 15-19 in 2003. In addition, there were 6,874 inpatient hospitalizations for non-fatal injuries and poisonings. Thousands more less severe injuries are seen in emergency rooms as outpatients.

SP # 5

PERFORMANCE MEASURE:

The percent of women entering prenatal care during their first trimester in underserved primary care areas.

STATUS:

Active

GOAL

To increase the percent of women entering prenatal care during their first trimesters in underserved primary care areas.

DEFINITION

Underserved primary care areas, for the purpose of this measure, are defined as areas in which fewer than 74 percent of women received a prenatal visit within their first trimester in 2003.

Numerator:

The number of women in underserved primary care areas who received a prenatal visit during their first trimester of pregnancy.

Denominator:

The number of women in underserved primary care areas who delivered a live birth.

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2010 OBJECTIVE

16-6

Increase the proportion of pregnant women who receive early and adequate prenatal care to 90%.

DATA SOURCES AND DATA ISSUES

Arizona birth certificate data contains information that allows it to be aggregate into primary care areas. Birth certificates will be the source of both the numerator and denominator for this measure.

SIGNIFICANCE

Prenatal care is an opportunity to identify risks and mitigate their impact on pregnancy outcomes through medical management. Prenatal visits also offer an opportunity for education and counseling on proper nutrition and risk factors, such as smoking and alcohol use during pregnancy. Prenatal care is more effective when women enter care early in their pregnancy. There are many areas of the state where the percent of women entering prenatal care early lags behind the statewide average.

SP # 6

PERFORMANCE MEASURE:

Percent of Medicaid enrollees age 1-18 who received at least one preventive dental service within the last year.

STATUS:

Active

GOAL

To increase the percent of high-risk children who receive preventive dental services each year to 57%.

DEFINITION

Numerator:

Line 12B, "Total eligibles receiving preventive dental services," sum of columns "1-2," "3-5," "6-9," "10-14," "15-18."

Denominator:

Line 1, "Total individuals eligible for EPSDT," sum of columns "1-2," "3-5," "6-9," "10-14," "15-18."

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2010 OBJECTIVE

21-12

Increase the proportion of low-income children and adolescents who received any preventive dental service during the past year.

DATA SOURCES AND DATA ISSUES

AHCCCS produces an annual "Form HCFA-416: Annual EPSDT Participation Report for Funding Source: Title XIX" containing dental utilization data, including information on preventive dental services.

SIGNIFICANCE

U. S. Surgeon General David Satcher deemed dental disease the "silent epidemic," yet, it is preventable with early intervention and the promotion of evidence-based prevention efforts like dental sealants. In an effort to improve health and well being it is imperative that we target interventions at preventing dental disease, especially in high-risk children. Although children enrolled in Medicaid are fully covered for dental services, they often fail to receive preventive dental care.

SP # 7

PERFORMANCE MEASURE:

Percent of parents and youth participating with state agencies in community development initiatives who completed the Parent Youth Leadership Training.

STATUS:

Active

GOAL

To have all parents and youth participating with state and community agencies to have completed the Parent Youth Leadership Training.

DEFINITION

The number of parents and youth completing leadership training out of all who are compensated for participation in OCSHCN activities.

Numerator:

Number of parents and youth completing Parent Youth Leadership Training.

Denominator:

All parents and youth who are compensated for participation in OCSHCN activities.

Units: 100 **Text:** Percent

HEALTHY PEOPLE 2010 OBJECTIVE

16.23

Increase the proportion of states and jurisdictions that have service systems for children with or at risk for chronic and disabling conditions as required by Public Law 101-239.

DATA SOURCES AND DATA ISSUES

Eventually, the numerator will be obtained from the ADHS e-Learning Management System, which will record access to the learning modules, completion of the modules, and the results of online competency testing. The denominator will be obtained from contract agreements with parents and youth leaders.

SIGNIFICANCE

The Arizona Department of Health Services, Office for Children with Special Health care Needs sought public input from its partners (e.g., community health centers, foundations, county health departments, state and community agencies, providers, and families of children with special health care needs) through a Needs Assessment Planning Group and focus groups composed of family members of children and youth with special health care needs. Participants in these groups were presented with data related to health status indicators, performance measures, and needs assessment. Education of youth, parents, and providers was mentioned as a significant need by both the focus groups and the Needs Assessment Planning group.

STATE: AZ

HEALTH SYSTEMS CAPACITY INDICATOR #09A (General MCH Data Capacity)
(The Ability of the State to Assure MCH Program Access to Policy and Program Relevant Information)

DATABASES OR SURVEYS	Does your MCH program have the ability to obtain data for program planning or policy purposes in a timely manner? (Select 1 - 3) *	Does your MCH program have Direct access to the electronic database for analysis? (Select Y/N)
ANNUAL DATA LINKAGES Annual linkage of infant birth and infant death certificates	3	Yes
Annual linkage of birth certificates and Medicaid Eligibility or Paid Claims Files	1	No
Annual linkage of birth certificates and WIC eligibility files	1	No
Annual linkage of birth certificates and newborn screening files	3	Yes
REGISTRIES AND SURVEYS Hospital discharge survey for at least 90% of in-State discharges	3	Yes
Annual birth defects surveillance system	2	No
Survey of recent mothers at least every two years (like PRAMS)	1	No

*Where:
1 = No, the MCH agency does not have this ability.
2 = Yes, the MCH agency sometimes has this ability, but not on a consistent basis.
3 = Yes, the MCH agency always has this ability.

FORM 19
HEALTH SYSTEMS CAPACITY INDICATOR - REPORTING AND TRACKING FORM
STATE: AZ

DATA SOURCES	Does your state participate in the YRBS survey? (Select 1 - 3)*	Does your MCH program have direct access to the state YRBS database for analysis? (Select Y/N)
Youth Risk Behavior Survey (YRBS)	3	Yes
Other:		

*Where:
1 = No
2 = Yes, the State participates but the sample size is not large enough for valid statewide estimates for this age group.
3 = Yes, the State participates and the sample size is large enough for valid statewide estimates for this age group.

Notes:
1. HEALTH SYSTEMS CAPACITY INDICATOR #09B was formerly reported as Developmental Health Status Indicator #05.

FORM NOTES FOR FORM 19

None

FIELD LEVEL NOTES

None

FORM 20
HEALTH STATUS INDICATORS #01-#05
MULTI-YEAR DATA
STATE: AZ

Form Level Notes for Form 11

None

HEALTH STATUS INDICATOR MEASURE # 01A

The percent of live births weighing less than 2,500 grams.

	<u>Annual Indicator Data</u>				
	2002	2003	2004	2005	2006
Annual Indicator	<u>6.8</u>	<u>7.1</u>	<u>7.2</u>	<u>6.9</u>	<u>6.9</u>
Numerator	<u>5,926</u>	<u>6,427</u>	<u>6,704</u>	<u>6,640</u>	<u> </u>
Denominator	<u>87,379</u>	<u>90,783</u>	<u>93,396</u>	<u>95,798</u>	<u> </u>

Check this box if you cannot report the numerator because
 1. There are fewer than 5 events over the last year, and
 2. The average number of events over the last 3 years is fewer than 5 and therefore a 3-year moving average cannot be applied.

(Explain data in a year note. See Guidance, Appendix IX.)

Is the Data Provisional or Final?

Final

Provisional

FORM NOTES FOR FORM 21

Births - Numbers do not include two cases with missing age, who were White, one was Hispanic and one was non-Hispanic.

FIELD LEVEL NOTES

1. **Section Number:** Indicator 09A
Field Name: HSIRace_SingleParentPercent
Row Name: Percent in household headed by single parent
Column Name:
Year: 2008
Field Note:
The percent in household headed by a single parent data are from the 2000 census.
2. **Section Number:** Indicator 09A
Field Name: HSIRace_TANFPercent
Row Name: Percent in TANF (Grant) families
Column Name:
Year: 2008
Field Note:
Percentage of children in TANF families is for July 2005-June 2006. Percentage is calculated as the average number of recipients per month divided by the total population of children 0-19 in the state. Native Hawaiian is included in "Asian" category.
3. **Section Number:** Indicator 09A
Field Name: HSIRace_FoodStampNo
Row Name: Number enrolled in food stamp program
Column Name:
Year: 2008
Field Note:
Number of children enrolled in food stamp program is for July 2005-June 2006.
4. **Section Number:** Indicator 09A
Field Name: HSIRace_JuvenileCrimeRate
Row Name: Rate (per 100,000) of juvenile crime arrests
Column Name:
Year: 2008
Field Note:
Native Hawaiian is included under Asian category.
5. **Section Number:** Indicator 09A
Field Name: HSIRace_DropOutPercent
Row Name: Percentage of high school drop-outs (grade 9 through 12)
Column Name:
Year: 2008
Field Note:
Percentages reported are for the 2004-2005 school year. Hawaiian is included in the Asian category.
6. **Section Number:** Indicator 10
Field Name: Urban
Row Name: Living in urban areas
Column Name:
Year: 2008
Field Note:
The proportions living in various geographic areas from the 2000 Census were applied to the total DES population estimates for 2006 to estimate the numbers living in various geographic areas.
