25,870 Arizona children under age 3 were hospitalized or seen in an emergency department for a non-fatal injury in 2013.

Falls caused the greatest number of non-fatal injuries.

99.1% of all non-fatal injuries were unintentional.

Prevent childhood injuries!

- Supervision is key
- Wear a helmet that fits correctly for skating, biking or other wheeled sports
- Childproof your home
- Buy age appropriate toys
- Car seats are a must when riding in a car

- Males comprised 56 percent and females 44 percent of the injuries to children between the age of 0 through 2 years old.

- Total hospital charges for all non-fatal inpatient hospitalizations or emergency department visits was $77.7 million.

- Seventy percent of the emergency department visits and 57 percent of the inpatient hospitalizations were paid for by Arizona Health Care Cost Containment System (AHCCCS).
