

ARTICLE 5. MEDICAL DIRECTION PROTOCOLS

R9-25-506. Renumbered Protocol for Requesting Authorization to Register Under the Protecting Patient Access to Emergency Medications Act of 2017

A. Under A.R.S. § 36-2205, the Department may authorize an emergency medical services provider to register with the U.S Drug Enforcement Administration pursuant to the Protecting Patient Access to Emergency Medications Act of 2017 according to 21 CFR Parts 1300, 1301, 1304, 1306, and 1307.

B. To request authorization according to subsection (A), an emergency medical services provider, including an ambulance service, shall submit to the Department:

1. The following information, in a Department-provided format:

a. The name of the emergency medical services provider;

b. Any other names by which the emergency medical services provider is known;

c. Whether the emergency medical services provider is a:

i. Governmental entity, the type of governmental entity, or

ii. Business organization;

d. The physical address, mailing address if different, e-mail address, and telephone number of the emergency medical services provider;

e. If the emergency medical services provider is an ambulance service regulated under Article 9 of this Chapter, the identifying number on the ambulance service's current certificate of necessity;

e. The name, email address, telephone number, and professional license number of the physician providing administrative medical direction on behalf of the emergency medical services provider; and

f. The signature and date of signing of the individual authorized according to R9-25-102 to sign on behalf of the emergency medical services provider; and

[We are not asking anything about which schedule of drugs they would be requesting from the DEA, as outside what we would need to know.]

2. An attestation from the physician designated by the emergency medical services provider to provide administrative medical direction according to R9-25-201 that includes:

a. The physician's name and professional license number,

b. The name of the emergency medical services provider for which the physician provides administrative medical direction,
