Section 2. Laser Safety Officer Responsibilities

- Per A.A.C. R9-7-1434(B)**, the LSO shall administer the laser radiation protection program and shall:
1. Ensure that maintenance or service for **Class 3b and Class 4 lasers** is performed only by technicians trained to provide the maintenance or service by either the manufacturer’s service organization or the registrant;
 2. Approve or reject written service, maintenance, and operating procedures;
 3. Investigate, document, and report all incidents as required by R9-7-1436;
 4. Select protective eyewear as required by R9-7-1435, along with any other protective equipment;
 5. For health care facilities, establish authorization and operating procedures, including preoperative and postoperative checklists, for use by operating room personnel;
 6. Ensure that authorized personnel are trained in the assessment and control of laser hazards;
 7. Select signs, symbols, and labels as required by R9-7- 1427;
 8. Perform laser radiation protection surveys as required by R9-7-1421 and R9-7-1441;
 9. Classify or verify the classification of lasers and laser systems used under the LSO’s jurisdiction;
 10. Evaluate the hazard of laser use areas, treatment areas, and controlled areas, as required by R9-7-1421.

- Per A.A.C. R9-7-1440(C)**, In a medical facility where several medical disciplines or a number of different practitioners use Class 3b and Class 4 lasers, a registrant shall form a Laser Safety Committee to govern laser activity, establish use criteria, and approve operating procedures, as follows:
1. With regard to membership of the committee the registrant shall include at least one representative of the Nursing staff, the LSO, one management representative, and one representative of each medical discipline that uses the lasers;
 2. The committee shall review actions by the LSO related to hazard evaluation and the monitoring and control of laser hazards; and
 3. The committee shall approve or deny requests by potential operators and ancillary personnel to operate or assist in the operation of a laser under the direction of a licensed practitioner.

Section 3. Training

Submit proof of your Laser Safety Officer training with this acknowledgment. Training must be in accordance with Title 9, Chapter 7, Article 14, Appendix D, of the Arizona Administrative Code. Click [HERE](#) for guidance.

Section 4. Acknowledgement (By signing below I certify that I have read the above information and acknowledge the responsibilities and limitations placed on me as LSO for this facility)
