Adult Foster Care Home Initial Checklist**

**Arizona Revised Statutes**  
(All facilities)

**Title 9, Chapter 10, Article 1**  
(General)

**Title 9, Chapter 10, Article 8**  
(Assisted Living Facilities - Adult Foster Care Homes)

<b>A.R.S. § 36-401.</b>	<b>Definitions;</b>
<b>A.</b>	In this chapter, unless the context otherwise requires: "Adult foster care home" means a residential setting that provides room and board and adult foster care services for at least one and not more than four adults who are participants in the Arizona long-term care system pursuant to chapter 29, article 2 of this title or contracts for services with the United States department of veterans affairs and in which the sponsor or the manager resides with the residents and integrates the residents who are receiving adult foster care into that person's family.
<b>6.</b>	"Adult foster care services" means supervision, assistance with eating, bathing, toileting, dressing, self-medication and other routines of daily living or services authorized by rules adopted pursuant to section 36-405 and section 36-2939, subsection C.
<b>7.</b>	
<b>C.</b>	Nursing care services may be provided by the adult foster care licensee if the licensee is a nurse who is licensed pursuant to title 32, chapter 15 and the services are limited to those allowed pursuant to law. The licensee shall keep a record of nursing services rendered.

This checklist is a tool for use in preparing for an initial inspection and does NOT contain all applicable regulations (rules and statutes) that govern the licensure of Adult Foster Care Homes.

The Department conducts an on-site initial inspection of each facility as part of the substantive review for issuing a license. To avoid delays in obtaining a license, please ensure the facility is in compliance with ALL regulations that govern Adult Foster Care Homes before scheduling an inspection. It is the applicant's responsibility to review, comprehend, and demonstrate substantial compliance with all regulations that govern the facility. The Department and the Department's Compliance Officers are NOT permitted to provide consultation services.

Please note the following when preparing for an on-site initial inspection:

- Policies and procedures must be applicable to the health care institution's class/subclass.
- A policy must be the intentions of the facility and the procedure must be how the facility will implement their intentions.
- Writing the page number of each policy and procedure next to the applicable rule may accelerate the on-site substantive review process.
- The facility must have a sample form for all documents required by rule.
- The facility must have complete personnel records for all required staff along with a tentative work schedule.
- The facility's premises must not have environmental safety issues and must be sufficient to accommodate the services in the scope of services.

Please see the Bureau's "Providers" home page for additional licensing resources.
