

Bureau of Residential Facilities Licensing Assisted Living Center Initial Checklist

Title 9, Chapter 10, Article 1 (General)

Title 9, Chapter 10, Article 8 (Assisted Living Facilities - Assisted Living Centers)

A.R.S. § 36- 401.	Definitions;
A.	In this chapter, unless the context otherwise requires:
8.	"Assisted living center" means an assisted living facility that provides resident rooms or residential units to eleven or more residents.
9.	"Assisted living facility" means a residential care institution, including an adult foster care home, that provides or contracts to provide supervisory care services, personal care services or directed care services on a continuous basis.
16.	"Directed care services" means programs and services, including supervisory and personal care services, that are provided to persons who are incapable of recognizing danger, summoning assistance, expressing need or making basic care decisions.
38.	"Personal care services" means assistance with activities of daily living that can be performed by persons without professional skills or professional training and includes the coordination or provision of intermittent nursing services and the administration of medications and treatments by a nurse who is licensed pursuant to title 32, chapter 15 or as otherwise provided by law.
47.	"Supervisory care services" means general supervision, including daily awareness of resident functioning and continuing needs, the ability to intervene in a crisis and assistance in the self-administration of prescribed medications.

This checklist is a tool for use in preparing for an initial inspection and does NOT contain all applicable regulations (rules and statutes) that govern the licensure of Assisted Living Facilities.

The Department conducts an on-site initial inspection of each facility as part of the substantive review for issuing a license. To avoid delays in obtaining a license, please ensure the facility is in compliance with ALL regulations that govern Assisted Living Centers before scheduling an inspection. It is the applicant's responsibility to review, comprehend, and demonstrate substantial compliance with all regulations that govern the facility. The Department and the Department's surveyors are NOT permitted to provide consultation services.

Please note the following when preparing for an on-site initial inspection:

- Policies and procedures must be applicable to the health care institution's class/subclass.
- · A policy must be the intentions of the facility and the procedure must be how the facility will implement their intentions.
- Writing the page number of each policy and procedure next to the applicable rule may accelerate the on-site substantive review process.
- The facility must have a sample form for all documents required by rule.
- The facility must have complete personnel records for all required staff along with a tentative work schedule.
- The facility's premises must not have environmental safety issues and must be sufficient to accommodate the services in the scope of services.

Please see the Bureau's "Providers" home page for additional licensing resources. http://www.azdhs.gov/licensing/residential-facilities/index.php#providers-home
