

**Applying Concepts of PI:
 Ongoing Evaluation and Closing the Loop**

Objective: Participants will build upon cumulative knowledge from Parts I and II of this series to further understand how to evaluate the performance improvement and patient safety (PIPS) process, use trauma registry data to inform injury prevention activities, and perform loop closure.

St. Joseph's Hospital and Medical Center
 Sonntag Pavilion* -PLEASE NOTE ROOM CHANGE-

Series Purpose Statement:
Trauma Programs are required to have an effective Performance Improvement (PI) plan in place to assist in the delivery of trauma care and injury prevention outreach activities. This three part series, ABCs of Trauma PI, will provide the fundamentals needed to understand the basics of a trauma program while positively reinforcing the already established components in your current PI plan.

Event made possible through funding provided by the Health Resources and Services Administration, Office of Rural Health Policy, Medicare Rural Hospital Flexibility Program

5.75 CE credits will be offered upon completion through the Northern Arizona Area Health Education Center.

*From Thomas Road, turn north on 3rd Ave. Park in the 3rd Ave parking garage. Entrance to the garage is just before the pedestrian bridge. After parking, return to the street level. Cross 3rd Av at the crosswalk near the pedestrian bridge. After going up the ramp to your left, you will see a second short set of stairs. This is the entrance to the Sonntag Pavilion. Parking validation slips will be provided. No need to bring in your garage ticket. Attendees may contact Michelle Guadnola directly if lost, 602-803-5890.
