Submit an isolate of the organism for each positive culture, if available, or a specimen for each positive test result. Submit a report immediately after receiving one specimen for detection of the agent. Report the receipt of any test result (by culture, antigen, antibodies to the virus, detection of viral nucleic acid, or genetic sequencing) for an infant younger than 90 days of age.

When appearing after one of the symbols to the left, the following modify the requirement:

1. When reporting a positive result for any of the specified tests, report the results of all other tests performed for the subject as part of the disease panel or as a reflex test.
2. Submit a report only when an initial positive result is obtained for an individual.
3. Submit an isolate or specimen of the organism, as applicable, only when an initial positive result is obtained for an individual, when a change in resistance pattern is detected, or when a positive result is obtained ≥ 12 months after the initial positive result is obtained for an individual.
4. Submit an isolate or specimen, as applicable, only by request.
5. Submit an isolate of the organism, if available, or a specimen when a positive result is obtained for an individual < 5 years of age.

See page 2 for electronic submission.

Submit a report within five working days after obtaining a positive test result or a test result specified in the above table.

Submit a report within one working day after obtaining a positive test result.

Submit a report immediately after receiving one specimen for detection of the agent.

Submit an isolate or specimen, as applicable, only when an initial positive result is obtained for an individual.

Submit an isolate of the organism for each positive culture, if available, or a specimen for each positive test result to the Arizona State Laboratory within one working day.

Submit an isolate of the organism for each positive culture to the Arizona State Laboratory within one working day.

Submit a report within one working day after obtaining a positive test result.

Submit a report within 24 hours after obtaining a positive test result.

Submit a report immediately after receiving one specimen for detection of the agent.

Submit an isolate of the organism for each positive culture, if available, or a specimen for each positive test result to the Arizona State Laboratory within one working day.

Submit an isolate of the organism for each positive culture to the Arizona State Laboratory within one working day.
Arizona Administrative Code R9-6-204
Clinical Laboratory* Director Reporting Requirements

A director of a clinical laboratory that obtains a test result described in the reporting table or that receives a specimen for detection of an infectious agent or toxin listed shall, either personally or through a representative, submit a report, in a Department-provided format, and, if applicable, an isolate or a specimen to the Department within the time limitation and as specified.

For each specimen for which an immediate report (•) is required, a clinical laboratory director shall ensure the report includes:

1. The name and address of the laboratory;
2. The name and telephone number of the director of the clinical laboratory;
3. The name and, as available, the address, telephone number, and email address of the subject;
4. The date of birth of the subject;
5. The gender of the subject;
6. The laboratory identification number;
7. The specimen type;
8. The date of collection of the specimen;
9. The type of test ordered on the specimen; and
10. The ordering health care provider's name, address, telephone number, and, if available, email address.

For each test result for a subject for which a report is required, a clinical laboratory director shall ensure the report includes:

1. The name and address of the laboratory;
2. The name and telephone number of the director of the clinical laboratory;
3. The name and, as available, the address, telephone number, and email address of the subject;
4. The date of birth of the subject;
5. The gender of the subject;
6. The laboratory identification number;
7. The specimen type;
8. The date of collection of the specimen;
9. The date of the result of the test;
10. The type of test completed on the specimen;
11. The test result, including quantitative values and reference ranges, if applicable; and
12. The ordering health care provider's name, address, telephone number, and, if available, email address.

Reports may be submitted via electronic laboratory reporting (ELR), by entry in MEDSIS (https://my.health.azdhs.gov/), or by phone, fax or mail.

Visit http://azdhs.gov/labreporting for information about initiating the ELR engagement process for your laboratory or obtaining MEDSIS access.

Additional reporting resources, including the laboratory reporting form and the list of reportable tests and results, are available at http://azdhs.gov/labreporting
