Agri-Trend Lab & Consulting
3337 33rd Place Yuma, AZ
928-317-1127

Fresh Terra Services
1929 South Arizona Avenue
Yuma, AZ
928-257-3601

---

### How much arsenic is too much arsenic?

Arizona Department of Health Services has developed a simple method to determine if arsenic levels are too high by using the color code below.

* **ppb** is parts per billion and mg/L is milligrams per liter.

- **Above 200 ppb or 0.2 mg/L**
  - This water should **not** be used for drinking or cooking! You should obtain your drinking water from another source immediately, or install and maintain a home treatment device.

- **11-200 ppb or 0.011-0.2 mg/L**
  - This water will increase the risk of long term or chronic health problems. Don't panic! Remember, chronic conditions develop over a long time. Make plans to obtain water from another source or install and maintain treatment.

- **Less than 10 ppb or 0.01 mg/L**
  - It is ok to drink and cook with this water.

### Recommended Well Testing Schedule

- **All New Wells**
  - Once a Year
  - Every 5 Years

<table>
<thead>
<tr>
<th></th>
<th>All New Wells</th>
<th>Once a Year</th>
<th>Every 5 Years</th>
</tr>
</thead>
<tbody>
<tr>
<td>Arsenic</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Bacteria:</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>total coliform</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Fluoride</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Lead</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Nitrates</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Total dissolved solids</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Uranium</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

**In addition to the schedule above, have your well tested if:**

- There are known problems with well water in your area
- You have experienced problems near your well (flooding, wildfire, land disturbances)
- You notice a change in water quality (taste, color, odor)
- Anyone in your family has an unexplained illness
