

Medical Exemption Form

Arizona law requires that schools, preschools, and child care facilities retain this form in order to exempt a child from immunization requirements for medical reasons.

2. The child has laboratory evidence of immunity to one or more specific vaccine-preventable diseases and lab results are attached (**required** for measles, rubella, and varicella); OR the child has a documented medical history of disease OR laboratory evidence of immunity for diseases other than measles, rubella, and varicella.
