Returning Stronger

Data show Arizona is ready for a gradual and phased-in return.

DECLINING SYMPTOMS

Hospital visits for COVID-like Illness (CLI) & Influenza-like Illness (ILI) are declining.

DECLINING PERCENTAGE OF POSITIVE TESTS

As the number of COVID-19 diagnostic tests has increased, the percentage of positive tests has decreased.

TREAT ALL PATIENTS WITHOUT CRISIS CARE

• 1,405 healthcare providers with adequate PPE, including 51 hospitals
• Adequate hospital beds, ICU beds and ventilators

ROBUST TESTING FOR AT-RISK HEALTHCARE WORKERS

• 51 hospitals attesting to a robust testing plan
• Implementing COVID-19 testing for residents and staff of 147 long-term care facilities
• Tens of thousands of serology tests reported to ADHS
