- Accept Medicaid, Medicare, and qualifying health plan of the health insurance marketplace assignment
- Implement a Sliding Fee Scale

Purpose
The Arizona State Loan Repayment Program (SLRP) provides loan repayment assistance to health care professionals who provide outpatient primary care services in designated Health Professional Shortage Areas (HPSA) of the State.

ISSUE
Arizona has a critical shortage of primary care providers who can address the health care needs of our residents.¹

WHAT CAN YOU DO TO HELP?
By participating in the Arizona Loan Repayment Program, you will have the opportunity to provide health care services to Arizona’s underserved communities while receiving loan repayment towards your student loan debt.

As a participating primary care provider, you may be able to pay off a majority or all of your qualifying student loan debt for a service commitment of at least 6 years in an underserved area of the State.

SLRP Award Amounts
