Eligible Families by Race*

Eligible Families by Race is provided to assist in understanding the unique cultural needs of the families in the community and to assist in ensuring enrolled caseload reflects the community being served.

AI/AN	28%
A/PI	0%
B/AA	1%
H/L	34%
WNH	37%

Caseload Capacity

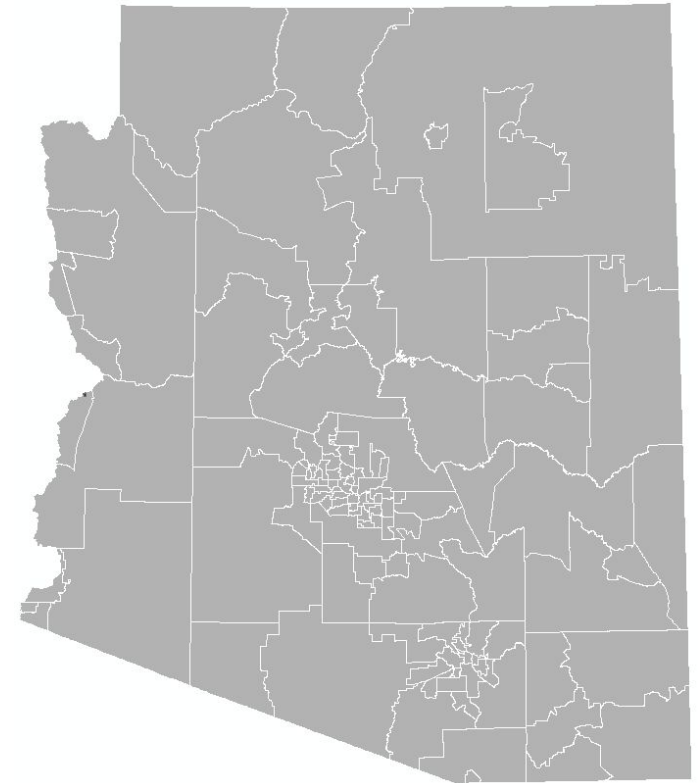

Caseload Capacity is 20% of the eligible families in a PCA. Caseload Capacity is the number of families that can be enrolled at any given time.

16

Number of Families Served

The goal of the program is to retain at least 65% of the enrolled participants. Therefore the total number of families to be served in a reporting year is anticipated to be less than or equal to the caseload capacity plus 35%.

22

*Eligible Families by Race:

AI/AN: American Indian/Alaskan Native

A/PI: Asian or Pacific Islander

B/AA: Black or African American

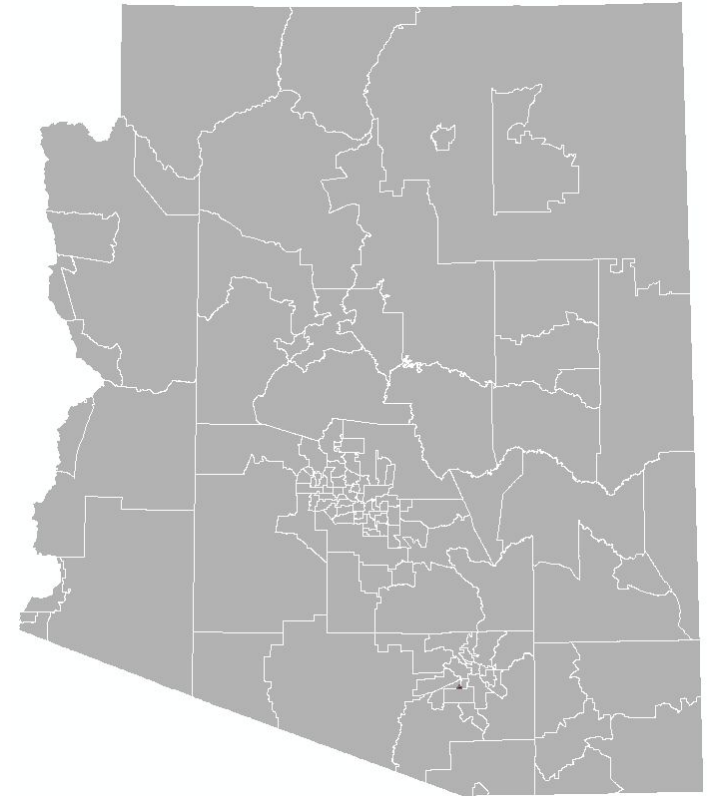

H/L: Hispanic/Latino

WNH: White Non-Hispanic

Parker is a tier 2, medium priority primary care area with one domain at risk.

Pascua Yaqui Tribe

Zip Code(s) to be served within this PCA Some zip codes overlap with more than one PCA. The Zip Code is assigned to the PCA that has the largest percentage of population of that zip code. **This zip code overlaps with a Tribal PCA and another PCA. When using this to determine service area, the tribal community would be serving tribal members within that identified zip code and another entity may be providing services the zip code outside of the tribal community.	85757**										
Number of Eligible Families Number of eligible families is based on the number of live births in the PCA during the latest reporting year (2019).	68
