

# COVID-19 Vaccine Boosters

**Everyone ages 16+ are recommended to get a booster shot.** At this time, teens 16-17 years old are recommended to receive a booster dose of Pfizer vaccine. Adults 18 and older are recommended to receive a booster dose of any U.S. authorized COVID-19 vaccine, regardless of the manufacturer.

If you received **Pfizer-BioNTech** or **Moderna** COVID-19 vaccines:

- You should get a booster dose **at least 6 months after** completing your primary COVID-19 vaccination series.

If you received **Johnson & Johnson's Janssen** COVID-19 vaccine:

- You should get a booster dose **at least 2 months after** your shot.

Have specific questions about the COVID-19 booster? Please discuss with your medical provider.
